KOJO

Prefab

A Connected Prefab Shop

Field teams can order prefab materials and track the status every step of the way in Kojo's mobile app, just like they do for all other materials
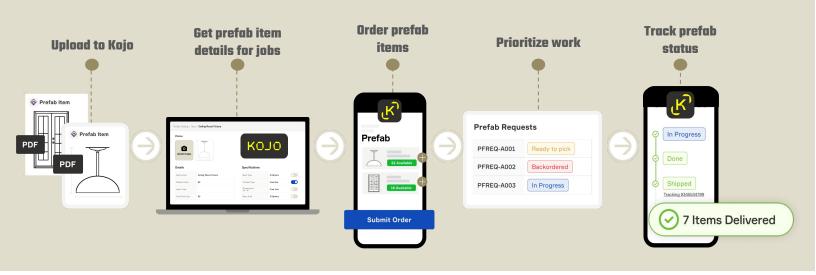

See the Full Potential of Prefab

Connect your valuable prefab operation to the rest of your business. When everyone has transparency, managing assemblies and ordering prefab materials is fast and easy

Customized and Digitized

Kojo is a flexible system to upload your unique prefab items while bringing automation to receiving orders to manage the work queue more effectively

Prefabrication helps with efficiency, safety and speed.

Kojo helps with Prefab.

Upload to Kojo → **Get prefab item details for jobs** → **Order prefab items** → **Prioritize work** → **Track prefab status**
